# The Agenda

1

Leveraging Mobile Technology in Platform Staffing

2

Unlocking the Mobile Talent Journey

3

Measuring Mobile Success

4

Bringing it all Together

## Traditional Staffing

- Build it yourself toolkit with ATS loosely integrated with many third-party vendors
- No single SOR
- Disjointed user experience
- One-to-one interactions
- Multiple vendors / points of failure
- Expensive to own, implement, and maintain

## Platform Staffing

- ✓ One end-to-end workflow feeding one system of record
- ✓ Connects the employer the agency, and talent, with the agency at the center
- ✓ Enables a recruiter to engage, onboard, and place many talents simultaneously
- ✓ Delivers high-quality experience for talent, agency, and employer alike

# Transforming the Staffing Experience

## Workforce Expectations:

- Seamless experience
- Easy job finding, applying, and starting process
- Example: Uber, Shopping Online

## Reality for Most Staffing Firms:

- Manual, Paper-Driven Process
  - Recruiter-dependent
  - Inefficient
- Complex Tech-Stack
  - Over-complicated for teams, talent, and clients

## The Solution:

- Mobile Experience
  - Streamlined process
  - Enhanced user experience
  - Scalable and efficient
  - Competitive advantage

# The power of Platform Staffing

Decrease time to fill with mobile technology and automation.

Hi {{Talent First Name}} please take the next step in your hiring journey and complete this brief prescreen interview

the JobID, send this message shortly after the application is received.

The screenshot displays the AVIONTE Live Chat interface. At the top, there is a navigation bar with the AVIONTE logo and menu items: myDashboard, Jobs, Talent, Timesheet, Companies, Agency, Documents, and Pixel. Below this is a sub-navigation bar with Live Chat, Conversations, Interviews, and Settings. The main content area is split into two columns. The left column, titled 'New Messages (16)', lists five messages from different users: William Smith (8:12am today), Sarah Phillips (6:14pm yesterday), Jack Robinson (4:32pm yesterday), Elliott Taylor (10:34am yesterday), and Heather Williams (2 days ago). Each message includes a profile picture, name, timestamp, and a '+1' or '+2' indicator. The right column shows a detailed chat window for William Smith. The chat history includes: a system message 'Good morning! We're excited for your first day. Do you have any questions?'; a user message 'Yes, where should I park?' (08:12); a system message 'It looks like there is an employee parking lot located on the east side of the main entrance. That will be your best bet.'; a user message 'Perfect' (08:12); a system message 'Click here to interview with Pixel' with a link 'Position: Cisco Engineer'; and a final system message 'Interview completed by William!' with a link 'Position: Cisco Engineer' and 'Visible only to...'. At the bottom of the chat window, there is a text input field with the message 'Have a great first day! And remember to fill out your timesheet.' and a smiley face emoji icon.

# Live Chat Interaction

- View, engage, and manage all talent SMS conversations in a single system of record
- Recruiters will be alerted when talent sends an inquiry
- Conversations and interviews included in the talent profile for complete view of engagement
